

Port D'Amour

Port D'Amour, a resort consisting of two breathtakingly luxurious and comfortable 5-star hotels, overhangs an exceptionally astounding 600-meter sandy shoreline. Centers and clubs are built specifically to cater for families with children and for Marine sports lovers. One of the hotels is designed to be a spa of international standards and aims to become one of the best health resorts in the region.

Port D'amour, a US\$85 million project, was expected to be finalized within a two and a half year period. Its eventual opening will lead to the creation of 800 jobs. Until now this is a standby project waiting for the political unrest to fade away.
